IRANANO 2023

The 14th International Nanotechnology Festival & Exhibition

November 4th _ 7th , 2023

Tehran International Permanent Fairground,

Tehran, Iran

About the Organizer

Iran Nanotechnology Innovation Council (INIC) was established in 2003 and started working as the national center in charge of developing nanoscience and nanotechnology in Iran. INIC is responsible for determining national policies in nanotechnology development and supervising their implementation. INIC's recent approach has been focusing on commercialization and industrial development. INIC supports startup companies in commercialization, introduces nanotechnology to existing companies, and helps nanotechnology-based companies to achieve a decent share of national and international markets.

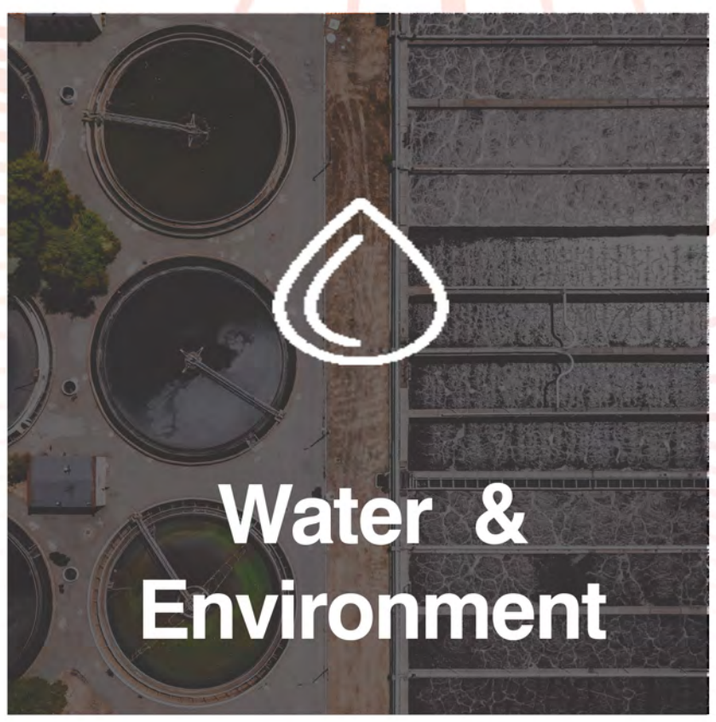
Why Visit?

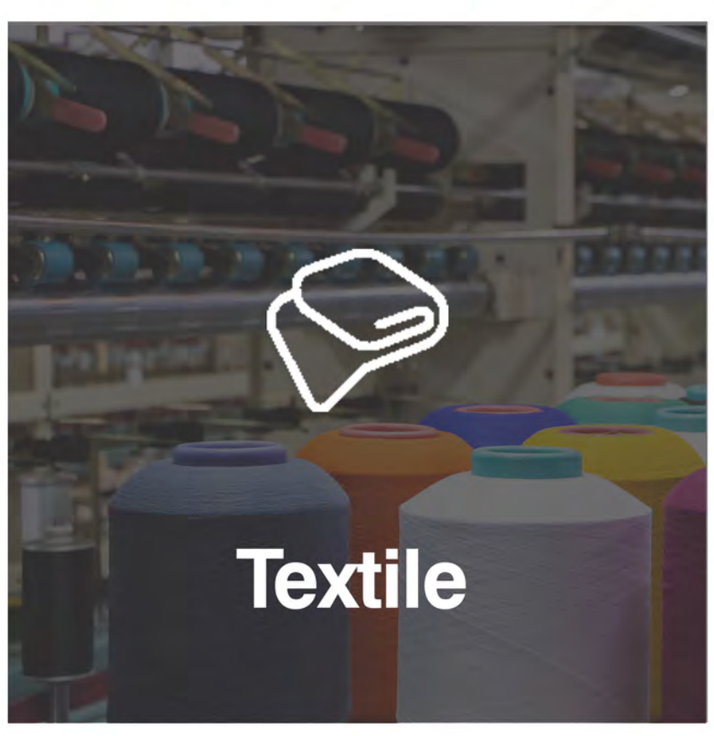
In this year's show, IRANNANO 2023 expanded the exhibition ground by adding two more halls for the show. This will provide the infrastructure for more than 250 exhibitors including universities, research institutes, technology providers, and companies with advanced materials, devices, and final products for various industrial applications. If you are looking for business cooperations, partners, and providers, and want to explore new business opportunities in various nanotech related areas, you are invited to visit IRANNANO 2023.

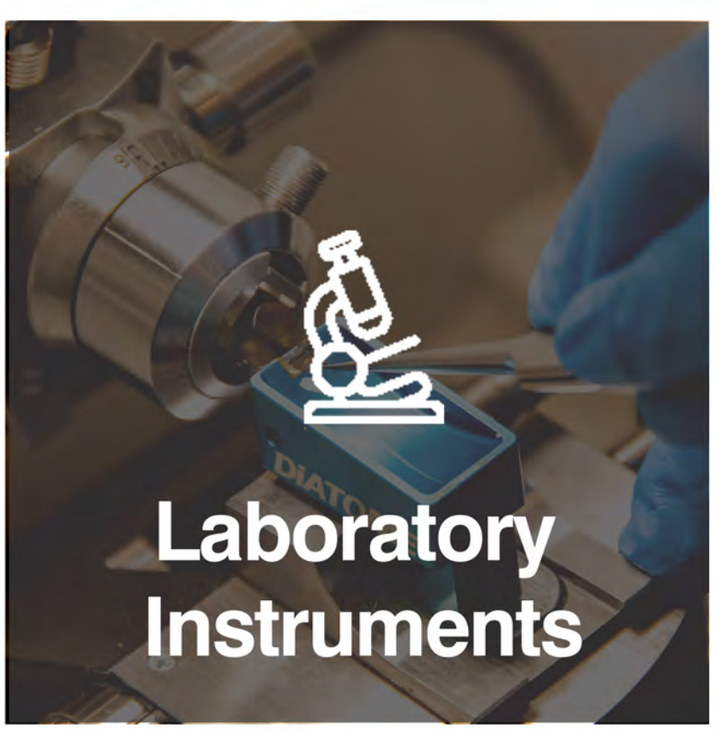
Why Exhibit?

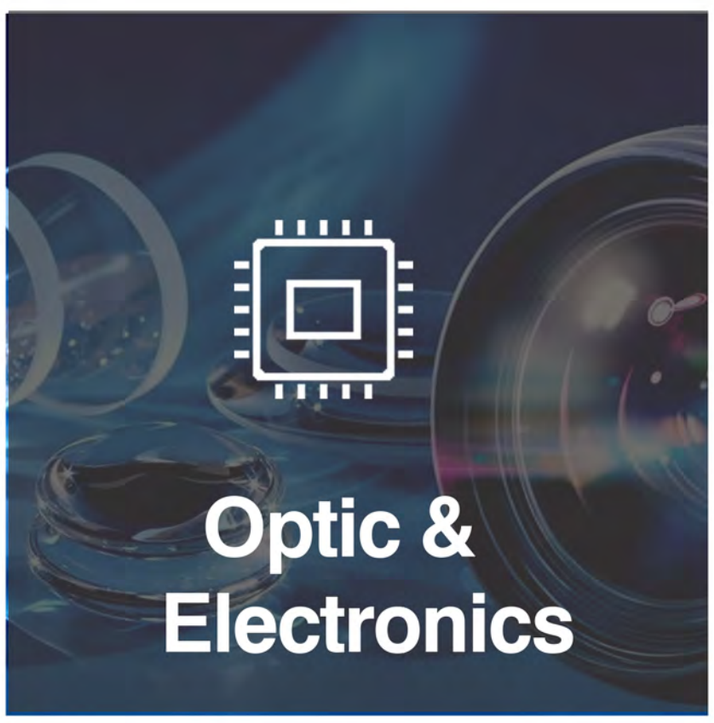
IRANNANO 2023 is hosting more than 10,000 visitors each year. Visitors are mainly looking for business opportunities and partners who can provide technologies, nano products and industrial solutions. Taking part in IRANNANO 2023 is a good way to expand your business in Iran's market and promote your company as a competitive partner and provider.

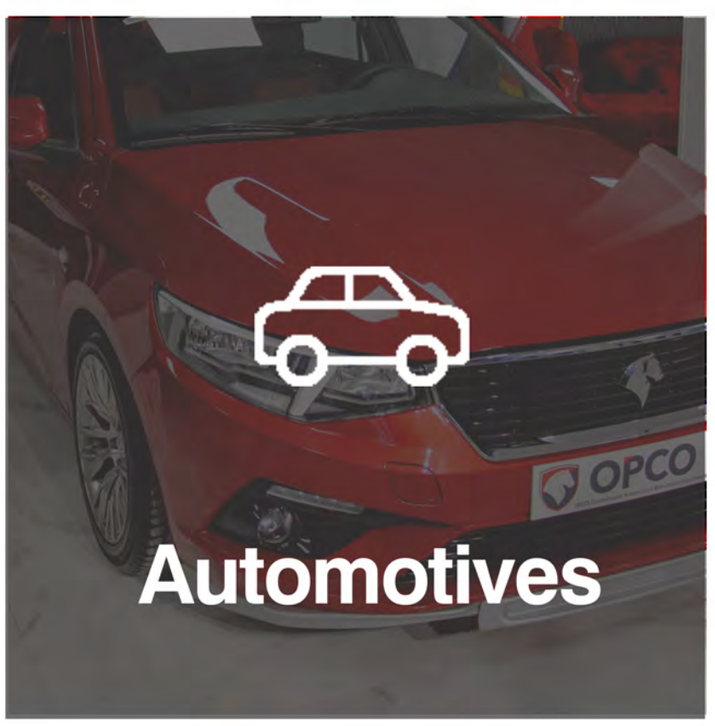
Industry Zones of IRANNANO 2023











IRANNANO 2022 Highlights

Workshops

25 workshops were held during the exhibition days in which companies showcased their new solutions, labratories introduced their services, and scientists presented their new findings.

MOU

98 memorandum of understandings and initial agreements signed between companies, labs, and key industry players.

Industrial Challenges

12 reverse pitches were presented by the big companies in different sectors. IRANNANO acts as open innovation platform between industry and technology providers.

Investing Opportunities

23 New MVPs and technologies were presented to get investments. Various individual and corporate investors track new opportunities in IRANNANO.

Contracts

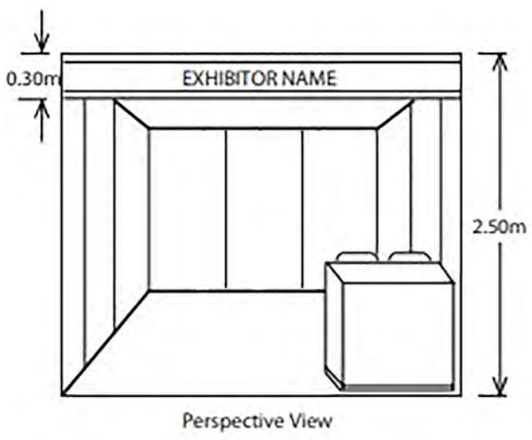
48 contracts and business deals were secured in the last IRANNANO event which makes the show a place for real business.

Venue Guidance

You are invited to the IRANNANO 2023 in the
Persian Gulf hall (44), Nation's hall (5)

Exhibition fee

Standard booth	270 €
Space only	265 €



Important Dates

Events	Start	End
Registration	Mar. 01	Aug. 22
Confirmation	Aug. 1	Sep. 1
Payment	On Site	On Site
Booth Set Up	Sep. 29	Sep. 30
Exhibition Duration	Nov. 4	Nov. 7
